

Landfill Contaminated land Borehole sampling
Groundwater sampling Low flow and disturbance sampling

Low flow groundwater sampling

Reduce sampling time and disposal costs

Sample Pro

Features

- Stainless steel construction
- Easy, quick assembly - twist lock feature
- Disposable bladders

Benefits

- Portable sampling made easier
- Pumps to fit minimum well 1" diameter
- Field serviceable
- Minimum sample disturbance

Applications

- Accurate low flow sampling

MP10

Features

- Digital control
- Allows controlled flow of air to pump
- Automatic

Benefits

- Lightweight, rugged, compact
- User friendly menu driven processor
- Adjustable sampling settings

Applications

- Used in conjunction with Sample Pro and Well Wizard

MP20

Features

- Multi parameter measurement
- Data storage and downloadable
- User defined purge scan settings

Benefits

- Purge scan technology of six water parameters monitored at the same time in one unit.

Well Wizard

Features

- PVC or stainless steel construction
- 10 year bladder warranty
- Narrow diameter
- Long term monitoring

Benefits

- Proven pump and bladder durability
- No agitation to sample
- Precise sampling with minimal disturbance

Applications

- Dedicated low flow sampling pump.

Micropurge

ADDITIONAL PRODUCTS

- Well caps - low clearance standard cap to suit 2" and 4" wells
- Tubing - twin bonded tube (Sample Pro 1/4" x 1/4" supplied in sealed tubs of 70m).
 - Teflon lined tubing (Well Wizard pump supplied to well depth specifications 1/4" x 3/8")

Technical Specifications

Micropurge

RANGE

		Flow rate / Flow	Maximum lift	Diameter
Sample Pro	Portable sampling pump	0.1L per cycle	76m	0.75" or 1.75cm
Well Wizard	Dedicated sampling pump	0.1 to 0.3L per cycle	300m	1.66" or 4.2cm
MP10	Air flow controller			
MP20	Multi parameter water analyser			
MP30	Water level indicator/			
BPCOMP	Petrol compressor - 12 volt optional
